

PLANETARY ASCENSION AND HEALING

LECTURER Angela Hutcheon and Catherine W Dunne

The study of Oneness, Merkabah and re-connection with Source.

This course is packed from A-Z with Attunements.

If you were to imagine the earth, without humans on it, as a planet made up of different levels of existence; the energy lines running throughout it, keeping the balance of nature, and within the solar system it is part of. Everything runs smoothly and creation happens every day.

At different junctures of the energy lines, there are vortices of energy which interact with other levels of existence, just like our chakras effect the different energetic layers of our bodies. Earth was created to be a 'school' for our souls to develop on, one of many, and so life-forms evolved to provide us with the opportunity to learn and develop as Souls.

As humans, with a Soul, we have free-will, and so our actions, good and bad, create change on this planet. This change is often very damaging; therefore, the earth's basic energy matrix often needs upgrading or rebuilding. If we are to remain here on our earth school, then we need to take care of it. At different times during our collective evolution, we also need new energies, new ideas, etc. and these come in through us; the ones whose job it is to maintain the energetic integrity of the planet; the Harmonisers and Balancers.

As Healers of the Earth we are the upgraders, rebuilders, anchors of new energies, soul rescuers, guides, energy-cleaners, and the custodians of Holy places. It is our job to work within all the layers of the Earth School's 'building', so that Humanity can continue its progress of learning. We must do the plumbing, the electricity, the heating, the gardens, provide the food, the shelter, etc., fixing it all when it becomes old and damaged. Our Earth house has many floors, many wings, and many rooms.

However, the earth also has a Soul
